Re: Use of the Lease-Lease Back Construction Delivery Methods by School Districts Under the Uniform Public Construction Cost Accounting Act

DISCUSSION

A public agency which has, by resolution, elected to become subject to the Uniform Construction Cost Accounting procedures set forth in Public Contract Code section 22010 et seq., may utilize the bidding procedures set forth in Public Contract Code section 22030 when contracting for “maintenance work,” or any project as defined. Public contract code section 22030 states:

This article applies only to a public agency whose governing board has by resolution elected to become subject to the uniform construction cost accounting procedures set forth in Article 2 (commencing with Section 22010) and which has notified the Controller of that election. In the event of a conflict with any other provision of law relative to bidding procedures, this article shall apply to any public agency which has adopted a resolution and so notified the Controller. [emphasis added]

The Act’s cost accounting standards and alternative bid methods are intended to promote uniformity of cost accounting standards and bidding procedures on construction, maintenance, and other work projects performed or contracted by public entities in California (Pub. Contract Code, § 22001). Local agencies that elect to become subject to the uniform construction cost accounting procedures become eligible to use the alternative bidding methods (Pub. Contract Code, § 22003 et seq.)

Under the alternative methods, projects of $30,000 or less may be performed by the employees of a public agency by force account, by negotiated contract, or by purchase order (Pub. Contract Code, § 22032(a)). Projects of $125,000 or less may be let to contract by informal procedures. (Pub. Contract Code, §§ 22032(b), 22034.) Generally, projects of more than $125,000 must be let by formal bidding procedures. (Pub. Contract Code, § 22032(c)).
2. **Education Code.**

Education Code section 17406, establishing the LLB construction delivery method, provides an alternative procedure to public bidding. In pertinent part, Education Code section 17406(a) states:

> Notwithstanding Section 17417, the governing board of a school district, without advertising for bids, may let, for a minimum rental of one dollar ($1) a year, to any person, firm, or corporation any real property that belongs to the district if the instrument by which such property is let requires the lessee therein to construct on the demised premises, or provide for the construction thereon of, a building or buildings for the use of the school district during the term thereof, and provides that title to that building shall vest in the school district at the expiration of that term. The instrument may provide for the means or methods by which that title shall vest in the school district prior to the expiration of that term, and shall contain such other terms and conditions as the governing board may deem to be in the best interest of the school district.

3. **Reconciling the Education Code and the Public Contract Code.**

Public Contract Code section 22030 states, “[i]n the event of a conflict with any other provision of law relative to bidding procedures, this article shall apply to any public agency which has adopted a resolution and so notified the Controller.” However, a plain reading of this statute clearly indicates that this language only applies to conflicts which involve bidding procedures and contracts which involve bidding. The statute makes no mention of “contracting” procedures, nor does it use any language which precludes a specific contracting method. In fact, the statute only uses the term “bidding procedures.”

It seems logical that if the Legislature intended to prohibit certain contracting methods, the Legislature would not have limited the language contained in the statute to “bidding procedures.” The LLB method of contracting does not involve “bidding procedures” or a competitively bid contract. By the plain language of Education Code section 17406, LLB contracts are let without advertising for bids or undertaking any other “bidding procedures.” Because the LLB method of procuring contracts does not involve such bidding procedures, we believe that the Act does not conflict with or override the Education Code as it relates to the LLB method of procuring contracts.

8. Other documentation supporting the request. If the requestor is unable to obtain information from the participating agency, the request should so state that fact and include an explanation of the circumstances. The statutory limit to complete the account review begins as of the day the request is received by the State Controller's Office. Incomplete review requests may affect the ability of the Commission to render a timely decision.

E. At the time it transmits its request to the Commission for review, the interested party shall mail a copy of the request by first class mail, postage prepaid, to the public agency involved.

IV. The Commission shall approve and designate in writing the consultants available to investigate requests for accounting procedures review, if needed. Such consultants shall be prequalified as follows:

A. They shall submit resumes of experience to the Commission for prequalification.

B. Each applicant shall have at least five years of experience with, and be knowledgeable of, public works construction and/or accounting under contracts let by public agencies.

C. They shall submit their schedule of fees required to perform such service.

V. Immediately upon receipt of a request for accounting procedures review, the Chairperson shall assign it to a working group consisting of two or more Commissioners. Each working group must have both private and public representation.

A. The working group may contact either the interested party or the signatory agency involved for additional information. They may also request a statement of the public agency's position with respect to the claim being set forth. Participating agencies are required to cooperate with any account reviews pursuant to this Act. Failing to cooperate fully, either through unwillingness or inability, may be found to be non-compliant.

B. If the work group deems it necessary, it may utilize the State Controller's Office audit division or a consultant deemed qualified for the purposes of this investigation. The auditor or consultant will conduct a thorough investigation of the facts surrounding the claim. This investigation may include any field work deemed necessary by the auditor or consultant. The auditor or consultant shall interview the public agency involved and submit as a part of the findings a complete statement of the public agency's position with respect to the review being conducted.

C. The auditor or consultant shall prepare written findings and a recommended decision within twenty (20) calendar days from the date the request for review was received by the Commission.

VI. A copy of the decision shall be mailed by first class mail, postage prepaid, to each Commissioner involved, the interested party, and the public agency involved.

VII. Decisions on accounting procedures reviews shall be collected and maintained at the offices of the Commission and shall be available for public inspection during regular working hours. Such decisions may be cited and relied upon by interested parties and public agencies in subsequent reviews.

VIII. Pursuant to Public Contract Code Section 22044.5 (AB 2372 – Chapter 192 of the Statutes of 2006), if the Commission makes a finding(s) on three separate occasions within a 10-year period, the Commission shall notify the public agency of the finding in writing by certified mail and the public agency shall not use the bidding procedures provided by the Act. For the purposes of these review procedures, one investigation resulting in a finding(s) shall equate to one occasion.

IX. These review procedures are based on current statutory law. Changes to statutory law shall be deemed to be automatically adopted into these procedures.
The Political Reform Act (Government Code Section 81000, et seq.) requires state and local agencies to adopt and promulgate conflict-of-interest codes. The Fair Political Practices Commission has adopted a regulation (2 Cal. Code of Regs. Sec 18730) which contains the terms of a standard conflict-of-interest code, which can be incorporated by reference in an agency's code. After public notice and hearing it may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act. Therefore, the terms of 2 California Code of Regulations Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission are hereby incorporated by reference. This regulation and the attached Appendix designating officials and employees and establishing disclosure categories, shall constitute the conflict-of-interest code of the California Uniform Construction Cost Accounting Commission (Commission).

Individuals holding designated positions shall file statements of economic interests with the Commission, which will make the statements available for public inspection and reproduction. Upon receipt of the statements of Commissioners, the Commission shall make and retain copies and forward the originals of these statements to the Fair Political Practices Commission. All other statements will be retained by the Commission.
