Following are highlights of the financial activities relating to California's streets and roads for the fiscal year ended June 30, 2011:

- Approximately \$6.1 billion was made available to California cities and counties for street and road purposes, a decrease of \$575 million (8.6%) from the 2009-10 fiscal year.
- Cities and counties reported combined street and road expenditures of \$6.2 billion, which is a decrease of \$53 million (0.8%) from the 2009-10 fiscal year.

I wish to join with staff members of the Division of Accounting and Reporting and the Division of Audits in extending our sincere appreciation to the many local government officials who contributed to this report.

Sincerely,

# Introduction

California Streets and Highways Code section 2151 requires each city and county to file an annual report of expenditures for street or road purposes with the State Controller's Office on or before October 1 of each year. Streets and Highways Code section 2154 requires the California State Controller's Office to distribute a compilation of those reports annually. The State Controller's Office prepared the financial tables presented in this report from data submitted by each city and county in its report; the data in these tables has not been audited.

Fifty-eight counties and 480 cities filed reports in compliance with Streets and Highways Code section 2151. The City of Stockton did not file the report in time for its data to be included in this publication. The City of Rolling Hills does not receive Highway Users Tax apportionments and, therefore, does not file an annual report with the State Controller's Office. Most cities and counties use a July 1 through June 30 fiscal year. The cities of South Lake Tahoe and Huntington Beach use an October 1 through September 30 fiscal year.

The *Accounting Standards and Procedures for Counties* manual, published by the State Controller's Office pursuant to Government Code section 30200, requires counties to report on a modified accrual basis. Cities maintain their records on either a cash basis or a modified accrual basis. With respect to entities using the modified accrual basis, the term "restricted balance" used throughout this report refers to the excess of current assets over current liabilities.

Monies made available to local agencies for street or road purposes are generally derived from federal, state, and local funds. Accordingly, this report lists all monies made available from such sources as Highway Users Tax apportionments (gas tax revenues); district road taxes and special assessments; street, road, and bridge taxes; and proceeds from the sale of bonds restricted exclusively for expenditures on streets and roads.

In addition, some funds expended for street and road purposes are derived from sources other than the reporting agency's treasury. Table 14 details street and road expenditures made by other governmental agencies and private parties. The expenditures presented in Table 14 are not included in the expenditure amounts of other tables in this report.

## City and County Summary

As shown in Figure 1, federal, state, and local funds made approximately \$6.1 billion available to California cities and counties for street and road purposes during the 2010-11 fiscal year, a decrease of \$575 million (8.6%) from the prior fiscal year.

Five-Year Summary

Sources of monies made available for cities and counties are summarized on pages x and xiv, respectively. Detailed statements of monies made available for each city and county are presented in Tables 3, 4, 9, and 10 of this report.

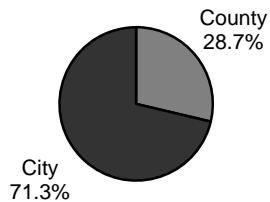

## City and County Expenditures

**Figure 6**

### City and County Expenditures

Fiscal Year 2010-11

Cities and counties reported combined expenditures of \$6.2 billion, as shown in Figure 1. This amount represents a decrease of \$53 million (0.8%) from the 2009-10 fiscal year. Figure 6 shows that city expenditures represented 71.3% of the total and county expenditures represented 28.7%.

Figure 7 provides a breakdown of expenditures by classification for the 2010-11 fiscal year. This figure shows that, of the total expenditures reported by cities and counties, 45.4% was spent for construction and rights-of-way, 41.2% for maintenance, 11.5% for engineering and administration, and 1.9% for other expenditures. “Construction” includes construction of streets and roads, signals, safety devices, streetlights, pedestrian ways, bike paths, and storm drains, as well as street reconstruction and storm damage repair. “Maintenance” includes patching, overlay, and sealing; maintenance of street lights and traffic signals; and snow removal and storm damage repair.

Total expenditures have decreased by approximately \$94 million (1.5%) since the 2006-07 fiscal year. Maintenance expenditures increased by \$3 million (0.1%). Expenditures for construction decreased by \$204 million (6.8%). Administration and other expenditures increased by \$107 million (14.8%).

**Figure 7**

### Expenditures by Classification

Fiscal Year 2010-11

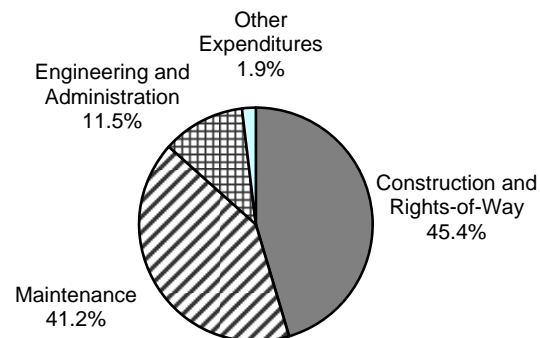

Figure 8 summarizes street and road expenditures by funding source. Streets and Highways Code sections 2105 and 2106 states that funds may be used for any street or road purpose. Section 2104 restricts funds for county road use, section 2107 restricts funds for street purposes, and section 2107.5 restricts funds for city administration and engineering and, in special situations, for right-of-way acquisition and street system construction. Discretionary funding sources provided by cities and counties represent 18.7% of total expenditures. Nondiscretionary expenditures have restricted use, while discretionary expenditures are not restricted. County contributions made by counties to cities are for nondiscretionary purposes and are reported separately from the other nondiscretionary total (Tables 5 and 11).

Figures 14 and 20 further summarize expenditures by cities and counties, respectively. Tables 5, 6, 11, and 12 present detailed expenditure statements for each city and county in this report.

## Snow Removal Expenditures

The State provides for reimbursement of a limited amount of snow removal costs incurred by local entities. Streets and Highways Code section 2152(c) requires cities and counties to file a schedule of expenditures for snow removal. Fifty percent of a city's expenditures in excess of \$5,000 are reimbursable from state funds. As an example, the City of Truckee's report shows actual snow removal costs of \$3,224,846. The actual amount minus \$5,000 equals \$3,219,846; 50% of \$3,219,846 totals \$1,609,923. Cities with less than \$5,000 in snow removal expenditures receive no reimbursement. No maximum reimbursement amount applies for city expenses.

Counties may claim 80% of their expenditures in excess of \$5,000. However, if the total of all county claims submitted exceeds \$7 million, the amount paid to each county is prorated using a formula based on the claimed amounts submitted by all counties in the preceding three years.

Figure 10 shows the reimbursement amounts payable to those cities and counties reporting snow removal expenditures. Actual snow removal expenditures totaled \$38,029,497 for the 2010-11 fiscal year. City snow removal expenditures accounted for \$10.4 million while county snow removal expenditures accounted for \$27.6 million. The details for snow removal expenditures reported by cities and counties are listed under "Maintenance" in Table 5 and Table 11, respectively.

<sup>1</sup> Funding for local streets and roads projects and facilities for use by pedestrians and bicycles or bicycle safety education programs.

<sup>2</sup> Beginning with 2010-11 fiscal year, funds are allocated to cities and counties from a new motor vehicle fuel excise tax (Section 2103).

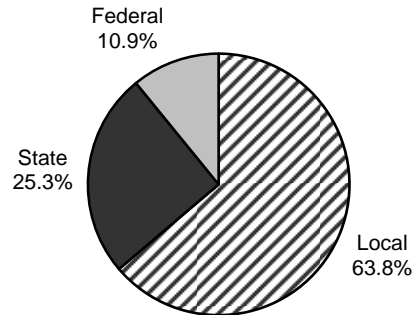

<sup>3</sup> Decrease is due to the elimination of Proposition 42 funds, the Traffic Congestion Improvement Act, in fiscal year 2010-11. The amount reported is from the fourth quarter payment remaining from the prior year.

Monies made available for city street purposes came from state, federal, and local sources. The majority of state funding came from monies allocated from the Highway Users Tax Fund. Most of the local revenue came from local general fund monies.
