How to Use the *Trial Court Revenue Distribution Guidelines*

The *Trial Court Revenue Distribution Guidelines* (Guidelines) consist of nine distribution tables that provide guidance on the distribution of trial court revenues that are required by California code. Each table is preceded by a narrative that identifies the code section within the table, as well as any special rules or background that may apply. The purpose of the narrative is to provide guidance on questions that may arise when working with the code sections within the table; the narrative may also apply to code sections in other tables. While a few tables have additional specialized columns, the basic organization and the definition of terms used in the tables are shown as follows:

Code Section	The California code section, with a descriptive title. Each code section is cited using the legend on the preceding page for the code, followed by the section number. For example, PEN 1464 refers to Penal Code section 1464.
Violation/Situation	The California code under which the conviction occurred (unless the code is the same as the distribution code) and/or a description of the situation that resulted in the charge.
Arresting Officer/Jurisdiction	The jurisdiction of the arresting officer (“city” versus “county”) is included when relevant for distribution purposes.
Distribution	The entity or entities to which the revenue is distributed (state, county, city, other agency, or victim) and the percentages of and/or conditions for the distribution. References to “city,” “county,” “state,” or similar entities refer to the treasury of the entity in question unless otherwise specified.
Applicable Fund	The fund or account to receive the distribution, as designated in the statute. “Not specified” means no specific fund is designated in the statute; the general fund of the receiving agency is the default fund in such cases.
Fund Use	The use of funds as restricted in the statute. “Not specified” means that a use is not specified in the statute.
Priority of Installment Payments	Court-ordered installment payments are disbursed according to the priorities set by PEN 1203.1d. For more information, see page 5.

The California Legislative Information website, <http://leginfo.legislature.ca.gov/>, provides information on California's bills and laws. The website also provides tools to help users track bills going through the legislative process that may affect those users if the bills become law. While the Guidelines provide direction to help understand specific code sections, the State Controller's Office (SCO) highly recommends that users read the entire code section to gain a complete understanding of the law.

Terminology

Base fine enhancements are additional monetary sanctions that are added to the base fine equaling the total base fine. For example, monetary sanctions pursuant to HSC 11372.5 and HSC 11372.7 add to the base fine.

The **chapter date** is the date on which the Governor signs a bill into law and the Secretary of State assigns the bill a chapter number that subsequently may be used to refer to the measure.

City arrest means an arrest by an employee of a city, or by a California Highway Patrol officer within the limits of a city. City includes any city; city and county; or district, including any enterprise special district, community service district, or community service area engaged in police protection activities pursuant to PEN 1463(b).

County arrest means an arrest by a California Highway Patrol officer outside the limits of a city, or any arrest by a county officer or by any other state officer. Any arrest that is not a city arrest is a county arrest.

The **effective date**, as specified by the Constitution, is the date when a law takes effect. The date is usually January 1 of the following year, unless the bill is an urgency measure or specifies another date.

Fees are monetary amounts paid by the defendant that are usually administrative in nature and are used to reimburse for services provided in statute.

Fines or base fines are the monetary sanctions, set by statute, for committing a criminal violation.

Forfeiture is the loss of money or property through seizure. For example, a defendant may post bail in order to be released from jail and to ensure his or her presence in court at a later date. If the defendant does not appear before the court when ordered, the bail may be forfeited. The forfeiture would then be distributed as stated in statute.

The difference between **mandatory** and **discretionary** language is whether or not compliance must be met with the law. Mandatory means compliance is required by law. Statute will include language such as *shall*, *must*, or *will*. Discretionary means compliance is optional. Statute will include language such as *may* or *should*. Read legislation carefully to determine whether the law is mandatory or discretionary.

Terminology
<p>The phrase notwithstanding any other provision of law is used in legislation to preclude that code section from being affected by any other code section. Code sections often interact with other code sections and to prevent unwanted changes to the meaning; legislators use the phrase to ensure that the code section is interpreted exactly how it is written.</p>
<p>Penalties, additional penalties, and penalty assessments are monetary sanctions imposed in addition to fines and often, but not always, have a calculation associated with the amount to assess.</p>
<p>Restitution fines are monetary sanctions intended to compensate the victim of a crime who incurs an economic loss as a result of the commission of a crime directly from the defendant convicted of that crime. Restitution fines shall not be subject to penalty assessments authorized in PEN 1464 or Chapter 12 (commencing with Section 76000) of Title 8 of the Government Code, or the state surcharge authorized in PEN 1465.7, and shall be deposited in the Restitution Fund in the State Treasury. Interest may not be assessed on restitution fines.</p>
<p>Restitution orders are assessed in every case in which a victim has suffered economic loss as a result of the defendant's conduct. The court shall require that the defendant make restitution to the victim or victims in an amount established by court order, based on the amount of loss claimed by the victim or victims or any other showing to the court. Interest may be assessed on restitution orders at the rate of 10% per annum pursuant to PEN 1202.4(f)(3)(G).</p>
<p>State and local penalties are PEN 1464, GOV 70372, GOV 76000, GOV 76000.5, GOV 76104.6, and GOV 76104.7. These penalties are levied upon every fine, penalty, or forfeiture imposed and collected by the courts for all criminal offenses, including, but not limited to, all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code.</p>
<p>State surcharge is an amount equal to 20% that is levied on the total base fine pursuant to PEN 1465.7 and distributed to the State General Fund.</p>
<p>Total base fine is the sum of the base fine plus the base fine enhancements. It is the starting point upon which the state and local penalties, the 2% deposit for automation, and the state surcharge are calculated.</p>
<p>2% deposit for automation is a distribution pursuant to GOV 68090.8, and not an additional fine or fee. GOV 68090.8 requires that 2% of all fines, penalties, and forfeitures collected in criminal cases be remitted to the State Trial Court Improvement Fund (Improvement Modernization Fund) to finance court administrative automation projects.</p>

Terminology

The phrase **X dollars for every ten dollars (\$10), or part of ten dollars (\$10)** is commonly used in many code sections that outline penalties, additional penalties, and penalty assessments. To calculate the proper dollar amount, divide the base fine by 10. If the resulting number is a whole number, then it is used to calculate the penalty. If the number is not a whole number, then it is rounded up to the next whole number and then used to calculate the penalty.

For example, GOV 76104.7(a) states: "Except as otherwise provided in this section, in addition to the penalty levied pursuant to Section 76104.6, there shall be levied an additional state-only penalty of four dollars (\$4) for every ten dollars (\$10), or part of ten dollars (\$10), in each county upon every fine, penalty, or forfeiture imposed and collected by the courts for all criminal offenses, including all offenses involving a violation of the Vehicle Code or any local ordinance adopted pursuant to the Vehicle Code."

1. To calculate this penalty with a base fine of \$30, divide the base fine by 10; this gives a factor of 3. Multiply the factor of 3 by the \$4 assessed for every \$10 or part of \$10 assessed in this code section; this equals \$12.
Answer: \$12 is the amount to be collected on a \$30 base fine for this code section.
2. If the base fine was instead \$31, divide the base fine by 10; this gives a factor of 3.1. Round up the factor of 3.1 to 4 (round up to the next whole number). Multiply the factor of 4 by the \$4 assessed for every \$10 or part of \$10 assessed in this code section; this equals \$16.
Answer: \$16 is the amount to be collected on a \$31 base fine for this code section.

Priority of Installment Payments

PEN 1203.1d establishes mandatory priorities in the distribution of criminal and traffic court-ordered debt installment payments, as follows:

1. Restitution orders to victims (PEN 1202.4(f)).
2. 20% State Surcharge (PEN 1465.7).
3. Any fines, penalty assessments, and restitution fines (PEN 1202.4 (b)). Payment of each of these items shall be made on a proportional basis to the total amount levied for all of these items.
4. Other reimbursable costs.

The code sections within the tables are marked with their distribution priority for installment payments as indicated in the far right column of each applicable table.

The following table provides a summary of the priority of installment payments pertaining to the entries in each table from page 8 to 154:

Priority of Payments on Additional Penalties

When installment payments are received, they are distributed to Priority 1. Once Priority 1 is fulfilled, the payments are distributed to Priority 2 and so forth. PEN 1203.1d(3) states that the payments to the items in Priority 3 are to be made in proportion to the total amount levied for all of these items. Penalty assessments fall under Priority 3 if installment payments are made.

Table 1 — General Distribution of Fines and Forfeitures under PEN 1463.001

All criminal fines and forfeitures (except parking) without a specific distribution in statute are distributed pursuant to PEN 1463.001. Be advised that most statutes do not designate a specific distribution and are not separately listed in the Guidelines.

As stated in PEN 1463(l), “total fine or forfeiture” for purposes of distribution under PEN 1463.001 includes “the total amount of bail forfeited or deposited as cash bail subject to forfeiture.”

The special distribution for bail increases, pursuant to PEN 1463.28, applies to city arrest violations, but does not apply to county arrest violations within the specified counties.

The California Attorney General's Office has clarified that changes in PEN 1214 do not allow a county to charge interest on delinquent and/or unpaid fines. In *People v. Sutter Street Ry. Co*, 129 Cal. 545 (1900), the California Supreme Court held that interest was not allowed because the fine was for the purpose of punishment rather than for compensating for loss or damage. Furthermore, the absence of a specific distribution for interest indicates that the Legislature did not intend criminal judgment fines to bear interest.

The following apply to the fines and forfeitures in Table 1:

- State and local penalties;
- 2% deposit for automation; and
- State surcharge.

Table 2 — Special Distributions of Fines and Forfeitures Preceding PEN 1463.001 Distribution

Table 2 includes special distributions of the total base fine that are deposited for special purposes prior to distribution pursuant to PEN 1463.001.

PEN 1203.1 requires that all fines collected by probation officers from defendants on formal probation be deposited into the county general fund, except for specified distributions. The specified distributions include, but are not limited to, PEN 1463.16 and 1463.18 (a)(1), and exclude PEN 1463.14(a). Therefore, there is no requirement to deposit PEN 1463.14(a) collections in the county special account on formal probation cases.

The following apply to the fines and forfeitures in Table 2:

- State and local penalties;
- 2% deposit for automation; and
- State surcharge.

Table 3 — Specific Fine and Forfeiture Distributions

Table 3 includes fines and forfeitures that have a specific charge and/or distributions to a specific party, fund, or purpose. If a fine or a part of a fine is to be distributed pursuant to PEN 1463.001, the details of the distribution are shown in Table 1.

For example, FGC 12009 is a fine assessed on illegal abalone fishing. The money collected from any fine or forfeiture imposed or collected is specifically distributed 50% to the Abalone Restoration and Preservation Account and 50% to the county treasury of the county in which the violation occurred.

The following apply to the fines and forfeitures in Table 3:

- State and local penalties;
- 2% deposit for automation; and
- State surcharge.

Table 6 — Penalty and Assessment Distributions

Table 6 includes penalties and assessments that are subject to the 2% deposit for automation. The following lists are not all-inclusive.

2% deposit for automation (GOV 68090.8) applies to:

- 1) The state penalty (PEN 1464)¹;
- 2) The local additional penalty (GOV 76000);
- 3) The state court construction penalty (GOV 70372);
- 4) The Proposition 69 DNA Identification Penalty (GOV 76104.6); and
- 5) The DNA Additional Penalty Assessment (GOV 76104.7).

2% deposit for automation (GOV 68090.8) does not apply to:

- 1) 20% state surcharge (PEN 1465.7); or
- 2) The conviction assessment (GOV 70373)

The state construction penalty assessment is levied pursuant to GOV 70372(a) in an amount equal to \$5 for every \$10 or forfeiture imposed and collected by the courts for all criminal offenses, including, but not limited to, all offenses involving a violation of a section of the Fish and Game Code, the Health and Safety Code, or the Vehicle Code, or any local ordinance adopted pursuant to the Vehicle Code. Per GOV 70372(b), the state construction penalty assessment is also levied upon every parking fine, forfeiture, and penalty in the amount of \$4.50.

Pursuant to GOV 70375, on the June 30th following any transfer of court facilities ownership from the county to the State (Judicial Council), the local penalty (GOV 76000) will be reduced by the percentage of the square footage transferred to the State to the county's total square footage of court facilities plus an amount sufficient to service any bonded indebtedness on the court facilities. If all of the county's courthouse facilities are transferred and no bonded indebtedness remains, the local penalty pursuant to GOV 76000 will be reduced from \$7 for each \$10 (for most counties) to the amount specified in GOV 76000(e).

¹ Although the 34% of the proof of correction fee (VEH 40611) is included in the state portion (70%) of the PEN 1464 distribution, the 2% deposit for automation does not apply because it is a fee and not a fine, penalty, or forfeiture.
