Audit Report

Summary

The State Controller's Office (SCO) audited the City of Hermosa Beach's Special Gas Tax Street Improvement Fund for the period of July 1, 2005, through June 30, 2006. We also audited the Traffic Congestion Relief Fund allocations recorded in the Special Gas Tax Street Improvement Fund for the period of July 1, 2000, through June 30, 2006. The last day of fieldwork was June 6, 2007.

Our audit disclosed that the city accounted for and expended its Special Gas Tax Street Improvement Fund in compliance with requirements, and that no adjustment to the fund is required.

Background

The State apportions funds monthly from the highway users tax account in the transportation tax fund to cities and counties for the construction, maintenance, and operation of local streets and roads. The highway users taxes derive from state taxes on the sale of motor vehicle fuels. In accordance with Streets and Highways Code section 2101 and Article XIX of the California Constitution, a city must deposit all apportionments of highway users taxes in its Special Gas Tax Street Improvement Fund. A city must expend gas tax funds only for street-related purposes. We conducted our audit of the city's Special Gas Tax Street Improvement Fund under the authority of Government Code section 12410.

Chapter 91, Statutes of 2000 (Assembly Bill 2928), as amended by Chapter 656, Statutes of 2000 (Senate Bill 1662), established a Traffic Congestion Relief Fund in the State Treasury for allocating funds quarterly to cities and counties for street or road maintenance, reconstruction, and storm damage repair. Cities must deposit funds received into the city account designated for the receipt of state funds allocated for transportation purposes. The city recorded its Traffic Congestion Relief Fund allocations in the Gas Tax Fund. We conducted our audit of the city's Traffic Congestion Relief Fund allocations under the authority of Streets and Highways Code sections 2182 and 2182.1.

Objective, Scope, and Methodology

Our audit objective was to determine whether the city accounted for and expended the Special Gas Tax Street Improvement Fund in compliance with Article XIX of the California Constitution and the Streets and Highways Code. To meet the audit objective, we determined whether the city:

- Properly deposited highway users tax apportionments and other appropriate revenues in the Special Gas Tax Street Improvement Fund;
- Properly deposited Traffic Congestion Relief Fund allocations into an account designated for the receipt of state funds allocated for transportation purposes;

- Expended funds exclusively for authorized street-related purposes; and
- Made available unexpended funds for future expenditures.

We conducted our audit according to *Government Auditing Standards*, issued by the Comptroller General of the United States. We did not audit the city's financial statements. We limited our audit scope to planning and performing the audit procedures necessary to obtain reasonable assurance that the city accounted for and expended the Special Gas Tax Street Improvement Fund in accordance with the requirements of the Streets and Highways Code. Accordingly, we examined transactions, on a test basis, to determine whether the city expended funds for street purposes. We considered the city's internal controls only to the extent necessary to plan the audit.

Conclusion

Our audit disclosed that the city accounted for and expended its Special Gas Tax Street Improvement Fund in compliance with Article XIX of the California Constitution and the Streets and Highways Code for the period of July 1, 2005, through June 30, 2006. Our audit also disclosed that the city accounted for and expended its Traffic Congestion Relief Fund allocations recorded in the Gas Tax Fund in compliance with Article XIX of the California Constitution and the Streets and Highways Code for the period of July 1, 2000, through June 30, 2006.

Follow-Up on Prior Audit Findings

Our prior audit report, issued on March 1999, disclosed no findings.

Views of Responsible Official

We discussed the audit results with city representatives during an exit conference on June 6, 2007. Viki L. Copeland, Finance Director, agreed with the audit results. Ms. Copeland further agreed that a draft audit report was not necessary and that the audit report could be issued as final.

Restricted Use

This report is intended for the information and use of city management and the SCO; it is not intended to be and should not be used by anyone other than these specified parties. This restriction is not intended to limit distribution of this report, which is a matter of public record.

¹ The city receives apportionments from the state highway users tax account, pursuant to Streets and Highways Code sections 2105, 2106, 2107, and 2107.5. The basis of the apportionments for Sections 2105, 2106, and 2107 varies, but the money may be used for any street purpose. Streets and Highways Code section 2107.5 restricts apportionments to administration and engineering expenditures, except for cities with populations of fewer than 10,000 inhabitants. Those cities may use the funds for rights-of-way and for the construction of street systems.

² Chapter 91, Statutes of 2000 (Assembly Bill 2928), as amended by Chapter 656, Statutes of 2000 (Senate Bill 1662), established the State Traffic Congestion Relief Fund, which allocates funds to cities and counties for street or road maintenance and reconstruction.
