Title	Effective Date
New Appointment & Handling Health Appointment Issues	11/01/2025

Purpose

This job aid will help the user in their thought process when clearing Enrollment errors, specifically the Event type *New Appointment (NAP)*. This job aid does not cover all the scenarios surrounding the Event type *New Appointment (NAP)*, but this job aid should be able to give the user an idea on what to engage with, like references/sources, in order to reach a conclusion before an action is to be taken for future handling of errors.

Best Practices

- Make sure that you check myCalPERS a day after you key a transaction in PIMS to verify that the keyed transaction was reported in myCalPERS.
- In PIMS, do not key two transactions or more of the same effective date on the same day. If you need to correct a mistake, wait 24 hours before making the correction.
- Prioritize New Appointments (NAP) transactions as missing appointments, if not reported within 90 days in myCalPERS, will incur a late reporting fee.
- If an employee is determined as CalPERS eligible upon appointment, do not key the health appointment directly in myCalPERS. When keying the appointment in PIMS, check myCalPERS a day after to verify that the appointment was successfully reported in myCalPERS.
- When keying the retirement code in PIMS, ensure that the retirement code is correct by referencing the Personnel Letters, CalHR Pay Letters, Personnel Action Manual (PAM), Payroll Procedure Manual (PPM) and other Bargaining Unit Provisions and Policy.

 Deleting an Appointment

STEP	ACTION
1.	In this example, you will be deleting a new appointment error. The first step will be to view the error in the preprocessing area as shown below.  The screenshot shows the myCalPERS interface. Under the 'Search Preprocessing Data' section, a table lists search results. One result is highlighted with a red box: 'New Appointment Deletion' with an event date of 05/01/2021 and a status of 'Error'. The error message states: 'ENI00029 - The event correction or deletion was not applied because the corresponding event to be corrected or deleted does not exist.' Verify if there is a new appointment matching the error event date.  The screenshot shows the myCalPERS 'Profile' page. Under the 'Appointment History' section, a table lists appointments. The first entry is highlighted: 'State of California' (Employer), 'Department Of Corrections Men's Colony' (Division), 'Regular' (Appointment Type), 'PSYCHOLOGIST-CLINICAL, CORRECTIONAL FACILITY' (Position Title), 'State Safety' (Member Category), 'Perm Sep' (Appointment Status), '09/10/2007' (Start Date), and '05/01/2021' (End Date). Compare appointment details in myCalPERS to PIMS. Find the transaction that matches the enrollment error event.

The Transaction on 5/01/2021 RO1V has been voided.

A new appointment is not required and the error can be deleted.
